FILE COPY

Boeing's letter dated September 27, 1988 with enclosures addresses each of the items listed in the NOV. Warning signs are reported as having been posted on September 7, 1988; training records have been provided on the requested individuals; arrangements with locals are documented; the contingency plan was revised to include an evacuation plan; the closure plan was revised to address the deficiencies noted; and land ban waste containers are being dated.

No further action appears warranted on the Notice of Violation.
